

Floating piston for mountain bike seat post actuator

Reliable sealing for optimum system performance

Application

Adjustable pneumatic seat post

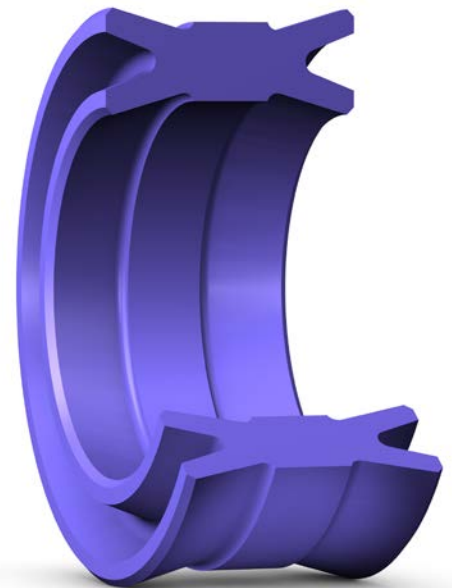

The floating piston from SKF for pneumatic mountain bike seat post actuators replaces conventional multiple component solutions with a single-part customized seal.

Features

- Symmetrical single part design for reliable sealing
- High performance low temperature polyurethane rubber compound
- Dynamic lip shapes for minimum friction and optimum seat post responsiveness

Benefits

- Simplified handling, installation and maintenance
- Significantly improved sealing performance
- Extended service life
- Possibility to tailor designs to fit different applications
- One-part solution facilitates logistic efforts
